

Tic Plas

Tania Zolty

See them drifting up down
lightly towards the trees
dancing in the leaves
caught in branches everywhere
plastic garland

Mother nature is crying out to
mankind
plastic : waste : poison

Mother Earth is crying

all over

Mother nature cries
showing us the signs
We have all gone blind

Mother Earth is crying

See them swirling in the current,
simply, resting on the shores,
building plastic patches
garbage floating trash

Tic plas tic Tic plas

Mother nature is crying out to
mankind
plastic : waste : poison

Mother Earth is crying

Growing fast all over all over

Mother nature cries
giving us the sign
It is time to draw the line

Mother Earth is crying

Tic plas tic Tic plas (choeur)

See them spread out in the fields quiet
Lives searching for food,
killed with toxic indigestion
Plastic poison

Tic plas tic Tic plas

Mother nature is crying out to us
plastic : waste : poison

Mother Earth is crying

all over all over

Tic plas tic Tic plas

Mother nature cries
showing us the signs
Mankind has to got find...the solution

Mother Earth is crying

Tic plas tic Tic plas...
