

Turning in circles

Tania Zolty

Our heads are spinning round
nothing is happening
asking all those questions
turning in circles

They don't know who you are
though they've come so far
hungry, tired and weakness
just needing to sleep

Hey hey hey they're here

You don't say a word
You don't even whisper
They keep asking you where
you tell them just keep on walking
I don't know why you ignore
treat them so
Where are our humans on this land

Hey hey hey they're here

burning candles trying to find
the calm calm nights
heads are turning loosing time loosing time
you cannot rid them here just give
so come on just give them where to live

Our heads are spinning round
nothing is happening
asking all those questions
turning in circles

They don't know who you are
though they've come so far
hungry, tired and weakness
just needing to be

burning candles trying to find
the calm calm nights
heads are turning loosing time loosing time
you cannot rid them here, just give
so come on, just give them where to live

Hey hey hey they're here

burning candles trying to find
the calm calm nights
heads are turning loosing time loosing time
you cannot rid them here, just give
so come on, just give them where to live
