

Talk N Talk

Tania Zolty

There was a time that I heard you
tell me that I was on the wall... the wall
It's raining it's pouring the cold drops are falling
It's raining it's pouring the cold drops are falling
There's a time when I heard you call my name on the night
that falls so down... on the wall

You're out
You're out
Taking it home
I'm down

Making it all the same that you were trying to find out
our name's we're just cold
Inside I hear a ghost with balls most in

Days are crossing out the crawl and never
trying to fake the way that I fell down
In the way that you would make it sound alright
and now now now now...
It's raining it's pouring the cold drops are falling
it's raining

Talk and talk...
Walking on the line and trying to get down
and trying to make it real and trying to
sound miles away

Raffling all the sound and taking all around
And trying to find out if I was alright in a way

There's too much days that I called out the ways
never never never never...
There's too much my side that's trying to sound the ways
never never never never our time

it's raining it's pouring the cold drops are falling...
There was a time that I heard you
tell me that I was on the wall..... the wall
Talk and talk...
it's raining and pouring
it's raining
Talk and talk
