

Hunger is my name

Tania Zolty

No I was never invited and I never wanted
that's for sure but
invaded many without even asking
slowly taking over not even caring if
the cries got louder I kept digging
till they lost all their senses

Cause I'm around
bringing them home with me
And they can feel
Yes I'm around
bringing them home with me
And they can feel
I've been around for centuries

I've travelled through many countries
Choosing all my next victims
taking over more than any, any other ruler
My weapon being so quite
they can't hear me creeping
under their fleshy innocent skin

Cause I'm around
bringing them home with me
And they can feel
Yes I'm around
bringing them home with me
And they can feel
I've been around for centuries

Many have tried to fight me
you can see me through their eyes
Little belly's round clinging to their mothers
Yes I'm horrible but somehow
the system doesn't want me to go away
For some stupid reason they really want me to stay

Instrument 4 measure

You've read about me saw me in the media
Many headlines I've become popular
Philosophers write about me
Politicians use me, songwriters fight
to warn you where I've been

Cause I'm around
bringing them home with me
And they can feel
Yes I'm around
bringing them home with me
And they can feel
I've been around for centuries

I never asked to be so powerful
I wish I didn't even exist
I'm just the result of a system imposed to many
I spend so much time destroying those around me
and it didn't even cost me one single penny
you know that hunger's my name!!

Cause I'm around
bringing them home with me
And they can feel
Yes I'm around
bringing them home with me
And they can feel
I've been around for centuries

OOOOOOUUUUUUU 2X
been around for centuries
been around for centuries
